### Catatan Budget

- **Daily budget diset per campaign** — bukan lifetime budget. Set daily budget sesuai kolom Budget/Hari di Meta Ads Manager.
- **C5 Babycare adalah campaign BARU** — butuh 2 minggu learning phase. Jangan evaluasi terlalu cepat. Target bulan 1: 5–10 leads saja.
- **Evaluasi setiap 7 hari** — jika CPL campaign tertentu di atas Rp 200.000, shift budget ke campaign yang lebih efisien.
- **Remarketing belum dialokasikan di budget ini** — setelah pixel terkumpul data minimal 500 events, tambahkan Retargeting campaign dengan budget Rp 500.000–700.000 tambahan.
- **Babycare perlu landing page khusus** — [dreamlab.id/maklon-babycare/](https://dreamlab.id/maklon-babycare/) dengan messaging untuk ibu entrepreneur. Jangan ke homepage.

# PANDUAN KHUSUS C5 — BABYCARE CAMPAIGN (NEW)

## Mengapa Babycare Layak Dimasuki Dreamlab?

- **Pasar tumbuh** — Pasar produk bayi Indonesia tumbuh 12-15% per tahun. Ibu Indonesia makin selektif soal ingredients produk bayi.
- **Trust gap yang besar** — Banyak brand bayi lokal yang formulanya tidak transparan. Dreamlab bisa tawarkan transparansi formula + BPOM halal.
- **Target = Mompreneur** — Ibu yang berbisnis adalah segmen paling aktif di Facebook & Instagram. Mereka relate dengan konten emosional + bisnis.
- **Lower competition** — Di Meta Ads, iklan maklon babycare masih jarang. CPM lebih murah, CTR lebih tinggi.
- **Upsell potential** — Client babycare bisa berkembang ke skincare, bodycare. Lifetime value tinggi.
