### Prinsip Struktur Campaign Baru

**STAG (Single Theme Ad Group)** — 1 ad group = 1 tema keyword. QS lebih tinggi karena iklan sangat relevan dengan keyword.

**Exact + Phrase Match ONLY** — Tidak ada Broad Match. Budget tidak bocor ke query yang tidak relevan.

**Separate campaign per market** — MLY dan SG di campaign berbeda. Bisa set bahasa, extension, dan landing page berbeda per negara.

**Transactional intent first** — Budget terbesar untuk keyword yang proven convert: 'pillow for neck pain'. Keyword informasional dapat budget lebih kecil atau di-exclude.

**Negative keywords dari hari 1** — Shared negative keyword list diapply ke semua campaign untuk cegah budget waste sejak awal.

- **Budget minimum untuk belajar:** Google butuh minimal 50 konversi/bulan per campaign untuk optimasi otomatis bekerja dengan baik. Budget di atas adalah minimum untuk kumpulan data.
- **Prioritas minggu 1:** Jalankan C1-MLY AG1 (Neck Pain Transactional) + AG4 (Brand) dulu. Ini yang paling proven dan paling aman untuk budget.
- **Campaign SG:** Start dengan Maximize Clicks karena belum ada data konversi. Setelah 10+ konversi, switch ke Maximize Conversions.
- **Competitor AG (AG5 MLY + AG4 SG):** Opsional — jalankan HANYA jika ada landing page khusus comparison. Tanpa LP yang kuat, competitor targeting akan buang budget.
