|            |                                                                                                                              |
|------------|------------------------------------------------------------------------------------------------------------------------------|
| ■ CRITICAL | 70% budget habis di 'best pillow for neck pain' (Rp 1.150.795) → 0 konversi. Ini keyword informasional, bukan transaksional. |
| ■ CRITICAL | Campaign SG bulan Maret: Rp 800.003 spent → 0 konversi. Butuh investigasi landing page + keyword intent SG.                  |
| ■ WARNING  | 'best pillow for neck pain' SG status LOW QUALITY SCORE — Google sedang membatasi tayangan dan menaikkan CPC.                |
| ■ WARNING  | 5 keyword flagged 'low quality' — Ad Relevance atau Landing Page Experience below average.                                   |
| ■ INSIGHT  | 'pillow for neck pain' MLY hanya Rp 94.994 spend tapi 2 konversi (33.33% conv rate) — ini keyword terbaik, harus di-scale.   |
| ■ INFO     | Brand keyword 'pillowblox' hanya 12 klik total (MLY+SG) — brand awareness masih sangat rendah.                               |

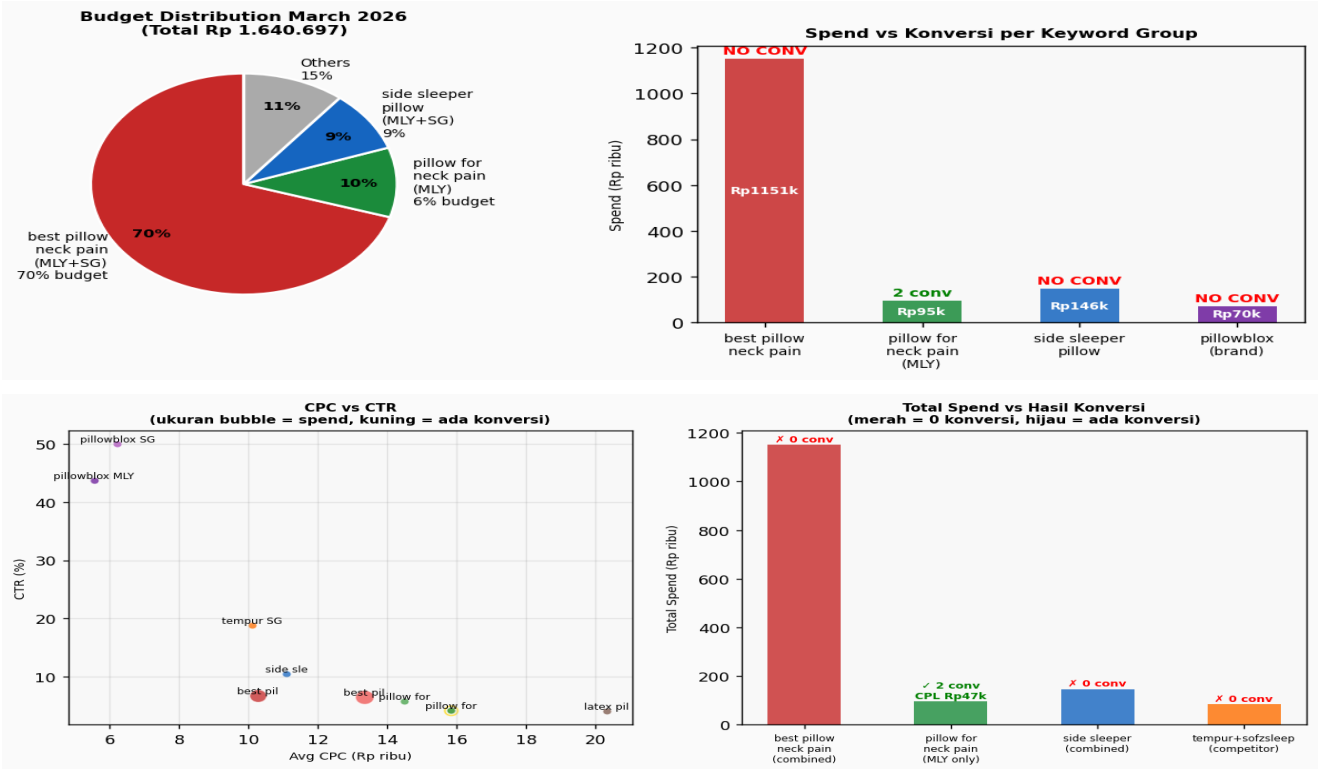

# 1. PERFORMA CAMPAIGN — MARCH vs FEBRUARY 2026

## Ringkasan Campaign

- **MLY (Malaysia):** Performa relatif lebih baik — 2 konversi di bulan Maret (pertama kali). CTR naik +7.17%. Tapi CPL masih sangat mahal di Rp 420.347/lead.
- **SG (Singapore):** Mengkhawatirkan — Rp 800.003 spent, 0 konversi bulan Maret. Impresi turun -42% (kemungkinan Quality Score memburuk). Butuh audit menyeluruh.
- **Total biaya March: Rp 1.640.697 untuk 2 konversi = CPL Rp 820.348** — terlalu mahal. Target realistis B2C pillow: CPL maksimal Rp 100.000–200.000.

### 3. ROOT CAUSE ANALYSIS — MENGAPA KONVERSI SANGAT RENDAH?

#### 01 CRITICAL Keyword Intent Mismatch — 70% Budget di Keyword Informasional

"best pillow for neck pain" adalah kata kunci yang digunakan orang yang SEDANG RISET/COMPARE produk, bukan yang siap beli. Keyword ini menghasilkan CTR lumayan (6.5–6.7%) tapi konversi 0 karena visitor masih di tahap consideration, belum decision.

**Evidence:** Rp 1.150.795 spent (MLY+SG) → 0 konversi. Bandwidth besar, hasil nol.

■ **FIX:** Kurangi budget "best pillow for neck pain" 70%. Alihkan ke "pillow for neck pain" yang sudah terbukti convert. Tambahkan keywords transaksional: "buy ergonomic pillow", "neck pain pillow price", "order pillowbox".

#### 02 CRITICAL Low Quality Score di Campaign SG — CPC Mahal, Tayangan Turun

"best pillow for neck pain" SG status "low quality" artinya Google nilai iklan TIDAK RELEVAN dengan keyword atau landing page kurang sesuai. Impresi SG turun -42% dari Feb ke Maret — Google membatasi tayangan iklan yang QS-nya rendah.

**Evidence:** SG impressions: 1653 (Feb) → 953 (Mar), -42%. Cost tetap tinggi tapi hasil makin sedikit.

■ **FIX:** Audit landing page: pastikan keyword muncul di H1, meta title, dan body page. Pisahkan ad group per keyword (1 keyword = 1 ad group). Tulis headline iklan yang mengandung exact keyword.

#### 03 WARNING Semua Keyword Pakai Broad Match — Budget Bocor ke Query Tidak Relevan

Broad match di Google Ads artinya iklan bisa muncul untuk query yang bahkan tidak ada kata yang sama. Contoh: "best pillow for neck pain" broad match bisa muncul untuk "bantal leher murah", "cara tidur yang baik", "pillow review youtube" — semua buang budget.

**Evidence:** CTR 6-10% tapi conversion rate hampir 0. Kemungkinan besar traffic yang masuk bukan buyer intent.

■ **FIX:** Switch ke Phrase Match minimum untuk semua keyword. Untuk keyword terbukti ("pillow for neck pain"), gunakan Exact Match. Tambahkan negative keyword list yang komprehensif.

#### 04 WARNING Tidak Ada Negative Keywords — Iklan Muncul di Query Salah

Tidak terlihat adanya negative keyword list di campaign ini. Tanpa negative keywords, budget dibuang untuk query seperti: "best pillow review", "pillow comparison", "neck pain exercises", "pillow DIY", bahkan "pillow case" atau "pillow stuffing" yang sama sekali tidak relevan.

**Evidence:** High impressions tapi CTR masih di bawah 10% = banyak impressions dari query yang tidak relevan.

■ **FIX:** Tambahkan negative keywords: -review, -compare, -DIY, -how to, -exercises, -case, -stuffing, -free, -cheap alternative. Setup Search Term report review setiap minggu.

#### 05 WARNING Campaign SG — Tidak Ada Konversi Sama Sekali (0 dari 2 Bulan)

Campaign Singapore belum pernah convert. Ada 2 kemungkinan: (1) Audience SG tidak tertarik produk Pillowbox, atau (2) Landing page tidak dioptimasi untuk market SG (bahasa, harga dalam SGD, shipping info ke SG).

**Evidence:** Feb SG: 0 conv. Mar SG: 0 conv. Total biaya SG 2 bulan: ~Rp 2.146.000 → 0 hasil.

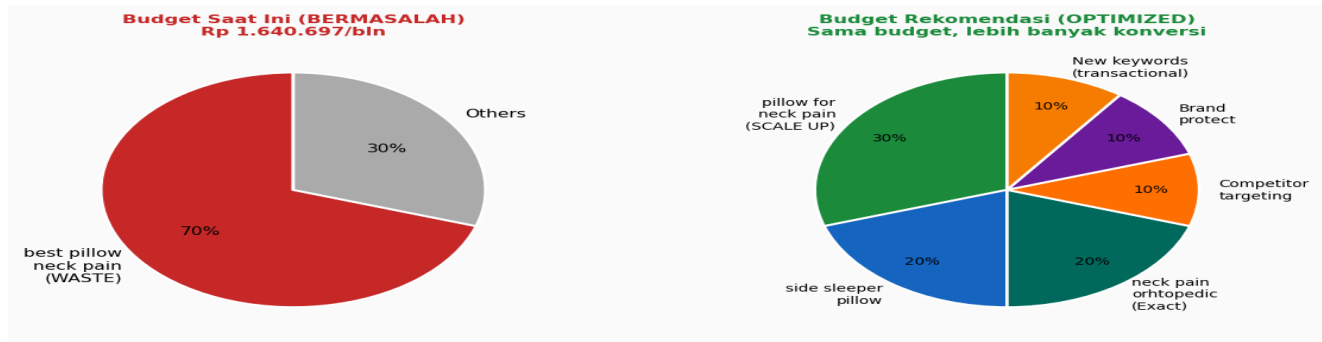

■ **FIX:** Pause campaign SG sementara. Audit landing page apakah ada: harga dalam SGD, opsi shipping ke Singapore, review dari customer SG. Jika tidak ada, SG campaign percuma.

"pillow for neck pain" MLY hanya mendapat 6 klik (Rp 94.994 spend) tapi menghasilkan 2 konversi dengan conv rate 33.33% dan CPL Rp 47.497 — ini adalah keyword terbaik di seluruh account tapi tidak mendapat prioritas budget.

**Evidence:** CPL Rp 47.497 vs campaign average Rp 820.348. Ini keyword yang harusnya mendapat 50%+ budget.

■ **FIX:** Scale "pillow for neck pain" MLY — naikkan bid, switch ke Exact Match, buat ad group sendiri khusus keyword ini. Target minimal 50-100 klik/bulan.

## 6. NEGATIVE KEYWORDS — WAJIB DITAMBAHKAN

Negative keywords mencegah iklan tampil untuk query yang tidak relevan. Ini salah satu cara tercepat untuk kurangi budget waste dan naikan conversion rate.

### Informational Intent — Yang Masih Riset, Belum Beli

"review" | "best" | "compare" | "comparison" | "vs" | "difference" | "which" | "should I buy" | "worth it" | "is it good" | "reddit" | "forum" | "blog" | "article" | "guide" | "how to choose"

### DIY / Non-Commercial Intent

"how to make" | "DIY" | "homemade" | "fill" | "stuffing" | "repair" | "case" | "cover" | "pillowcase" | "sewing" | "pattern"

### Medical / Non-Purchase Intent

"exercises" | "stretches" | "physiotherapy" | "treatment" | "doctor" | "cause of" | "why does" | "massage" | "yoga" | "heat pad"

### Wrong Product Category

"travel pillow" | "car seat pillow" | "floor pillow" | "decorative" | "throw pillow" | "outdoor pillow" | "baby pillow" | "pregnancy pillow"

### Price-sensitive / Non-target

"free" | "cheap alternative" | "budget" | "affordable" | "second hand" | "used" | "refurbished" | "discount code"

### Cara Tambah Negative Keywords di Google Ads:

1. Buka Google Ads → Tools & Settings → Shared Library → Negative Keyword Lists
2. Buat list baru: 'Pillowblox - Informational', 'Pillowblox - Wrong Category'
3. Apply list ke semua campaign (MLY + SG)
4. Setiap minggu: review Search Terms Report → pindahkan query yang tidak relevan ke negative list

## 7. ACTION PLAN — 4 MINGGU OPTIMASI

### Minggu 1 — Emergency Fix (Hentikan Bleeding Budget)

|                   |                                                                                                                                      |
|-------------------|--------------------------------------------------------------------------------------------------------------------------------------|
| <b>PAUSE</b>      | Pause atau drastis kurangi bid 'best pillow for neck pain' SG — ini yang paling banyak buang uang dengan 0 hasil                     |
| <b>SCALE</b>      | Scale 'pillow for neck pain' MLY: naikkan bid, switch ke Exact Match, buat ad group sendiri. Ini keyword yang sudah terbukti convert |
| <b>NEGATIVE</b>   | Tambahkan negative keywords: review, compare, how to, DIY, exercises, case, free — minimal 30 negative keywords                      |
| <b>MATCH TYPE</b> | Switch semua keyword dari Broad Match ke Phrase Match minimum. Broad match di akun yang belum punya conversion data = buang budget   |
| <b>SG AUDIT</b>   | Pause campaign SG sementara. Audit landing page apakah ada informasi untuk market SG (harga SGD, shipping, testimonial SG)           |

### Minggu 2 — Restructure & Add Keywords

|                  |                                                                                                                                           |
|------------------|-------------------------------------------------------------------------------------------------------------------------------------------|
| <b>STRUCTURE</b> | Buat ad group baru untuk setiap keyword utama (STAG: Single Theme Ad Group). 1 keyword per ad group = QS lebih tinggi                     |
| <b>NEW KW</b>    | Tambahkan transactional keywords: 'buy neck pain pillow', 'pillowbox price', 'order ergonomic pillow', 'orthopedic pillow price Malaysia' |
| <b>AD COPY</b>   | Tulis ulang semua ad copy: H1 HARUS mengandung exact keyword. H3 = CTA kuat. Gunakan angka spesifik di description                        |
| <b>LP REVIEW</b> | Audit landing page: keyword muncul di H1? Form/checkout visible above the fold? Page speed > 70 mobile? Trust signal ada?                 |

### Minggu 3 — Quality Score Improvement

|                     |                                                                                                                                        |
|---------------------|----------------------------------------------------------------------------------------------------------------------------------------|
| <b>QS FIX</b>       | Untuk keyword low quality: buat landing page atau section yang sangat spesifik untuk keyword tersebut. QS bergantung pada relevansi LP |
| <b>SG RELAUNCH</b>  | Jika LP sudah diperbaiki untuk market SG, relaunch campaign SG dengan budget kecil Rp 200k/hari — test 5 hari dulu                     |
| <b>BID STRATEGY</b> | Jika sudah ada 10+ konversi, switch dari Max Conversion ke Target CPA. Set Target CPA Rp 150.000 (realistis untuk B2C pillow)          |
| <b>SEARCH TERMS</b> | Review Search Terms report — identify query baru yang konversi baik untuk dijadikan exact match keyword                                |

### Minggu 4 — Evaluate & Scale

|                     |                                                                                                                               |
|---------------------|-------------------------------------------------------------------------------------------------------------------------------|
| <b>REPORT</b>       | Rekap: total clicks, konversi, CPL per keyword. Bandingkan dengan benchmark sebelum optimasi                                  |
| <b>SCALE WINNER</b> | Keywords dengan CPL < Rp 150k: naikkan budget 30%. Keywords dengan 0 konversi setelah 50 klik: pause                          |
| <b>LOOKALIKE</b>    | Setup Customer Match: upload email customer yang sudah beli. Buat RLSA (remarketing search) untuk visitor yang belum konversi |
| <b>PROJECTION</b>   | Jika optimasi berhasil: target 15-20 konversi/bulan dengan budget sama (CPL turun dari Rp 820k → Rp 80-110k)                  |

### Proyeksi Setelah Optimasi (Budget Sama)

| PERIODE                  | KONVERSI    | CPL         | CONV RATE | NOTES                        |
|--------------------------|-------------|-------------|-----------|------------------------------|
| March 2026 (Saat ini)    | 2 leads     | Rp 820.348  | 1.4%      | Before optimization          |
| Bulan 1 setelah optimasi | 10–15 leads | Rp 110–160k | 5–8%      | Negative KW + match type fix |
| Bulan 2 setelah optimasi | 15–25 leads | Rp 65–110k  | 8–12%     | New KW + QS improvement      |
| Bulan 3 (stabil)         | 25–40 leads | Rp 40–65k   | 12–18%    | Target CPA + RLSA aktif      |
